

Music Dive

Keyfacts

- Distortion
- Dynamic play
- Stable aluminium case
- Robust enamel
- True Bypass
- Blue DPD Switch

The Music Dive is a powerful Distortion. With its 3 knobs Distortion, Tone und Volume you can adjust any nuance from a hard Distortion to a soft and gentle Distortion. The effects are more powerful and hard. Even with a powerful distortion it makes a clear sound and allows you a dynamic play at any time. The stable aluminium case and the enamel make it robust and guarantee the product a long life time.
