

# Ooh-Drive II

## Keyfacts

- Overdrive
- Dynamic play
- Stable aluminium case
- Robust enamel
- True Bypass
- Blue DPD Switch

The Ooh-Drive II is a classical Overdrive. With its 3 knobs Distortion, Tone und Balance you can adjust any nuance from Distortion to Overdrive. Even with a powerful distortion it makes a clear sound and allows you a dynamic play at any time. The stable aluminium case and the enamel make it robust and guarantee the product a long life time.
